PHYLOSOPHY

The camp's philosophy is to allow the young players to blossom by focusing on the game's fundamentals with an emphasis on creativity and problem solving throughout matches and game situations.

We encourage players to be open to diverse soccer styles and to try to understand, recognize and appreciate how the game is played around the world.

In a positive, pedagogical and supportive environment, the emphasis of training is on ball control and possession, confidence in movement and individual expression as well as developing the core values of sports and life – ethics, hard work, leadership, teamwork and sportsmanship.
